Formula in serif-font as in papers (can be changed in LaTeX preamble):

$$a + b = c \int f(x) dx \quad (1)$$

Remember this!

The block appearance can be easily changed in the LaTeX preamble

Very Important

Sample text in red box

Examples

Green light Sample text in green box.

Bullets are smaller than in LaTeX, and begin aligned with text:

- Level 1
 - Level 2
 - Level 3

A list that is revealed

- PSI-style
- With dash instead of bullet
 - 1. Enumerated 1a
 - 2. Enumerated 1b

A list that is revealed

- PSI-style
 - With dash instead of bullet
 1. Enumerated 1a
 2. Enumerated 1b
- Item 2 (revealed on next slide)

A list that is revealed

- PSI-style

 1. Enumerated 1a
 2. Enumerated 1b
- Item 2 (revealed on next slide)
- Item 3
 - Item 4
 - Item 5

The PSI colors

Titles over two lines are possible

Some formulas, which can be tagged, e.g. (*):

$$\Gamma = \int_a^b f(x) dx \quad (*)$$

$$\sum_{n=1}^N x_{i_n} = \left(\frac{a+b}{c+d} \right) \cdot \sin(x)$$

- $\alpha = \zeta$; `\boldsymbol{\alpha} = \boldsymbol{\zeta}`
- $\mathcal{F}_t, \mathbb{R}^n$
- $\{t \mid t = 1, \dots, T\}$
- $f: X \rightarrow Y; f: x \mapsto y$; use `\colon`
- $y_n x_n^m$ versus $y_n x_n^m$

This is a frame with the usual ‘squeeze’ option of beamer to narrow linespacing a little bit; the color of this text is called `alert` in beamer

This is a color predefined in beamer called `structure`

You can start text high with a top-aligned frame in beamer

Columns:

Title of block

Top-aligned block in first column

Title in block

Block in second column

Example

Title of example block Block in first column

Title of alert block

Block in second column

Text outside of block in first column

Block with empty title

This is a box (without title)

This is a box (without title)

A slide with vertical centering.

Figures are automatically horiz. centered in beamer

Overwrite the margins

You can overwrite the margins with a wide column:

We need more space:

This is a very long text that needs a lot of space this is a very long text that needs a lot of space
this is a very long text that needs a lot of space
